

Hi - thanks for stopping by to learn about BIG BEADZ

BIG BEADZ - the big boho sister of a mala!

Your BIG BEADZ necklace comes from the heart of Bali - Ubud

~ Hand-knotted double-length / double-wrap

~ colorful big gemstone beads meeting dark mystical rudraksha seeds

~ two guru-bead focal-points: one big lava stone, one solid handmade metal ring

~ finished off with a handmade cotton tassel, respecting the 7 chakra colors

One version rocks some multi-color bling glass-faceted beads as well.

It is shiny and matt - modern and mystical - soft and solid - bright and dark

Since BIG BEADZ is clearly mala-inspired, we picked as the total number of beads 162 - in reference to the sacred number 9 and as the result of two short traditional malas of 81 beads put together.

The solid ring in the center focal point is handmade by a balinese silversmith and of multiple use:

Wear it as is, as a circle, as a loop

For practical use: loop your sunnies in

For personal touch: individualize your BIG BEADZ by hanging your favorite pendant, your personal lucky charm, your special little treasure.. pick and choose your own.

Fair production - Natural products - Made to last -Handmade with care in Bali
